Education

Vignan's Foundation for Science, Technology and Research (VFSTR) 2024 – 2028
B.Tech in Computer Science and Engineering *Vadlamudi, Guntur, Andhra Pradesh*

– CGPA: 8.35/10

Sri Chaitanya College, 2022 – 2024
Intermediate *97.8% (978/1000)*

Technical Skills

Languages: Python, C++, JavaScript
Frameworks & Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST APIs
Databases: SQL ,MONGODB
Developer Tools: Git, GitHub, VS Code, Postman, Render, Netlify
Libraries: NumPy, Pandas, Matplotlib, Seaborn
Core CS Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

FoodRush – Full-Stack Food Ordering Platform | *MERN Stack, Socket.IO, JWT* Jan. 2026 – Apr. 2026

– *Team Project*
– Collaborated in developing a full-stack food delivery platform using MongoDB, Express.js, React.js, and Node.js
– Contributed to backend development and database architecture for managing users, food items, orders, and delivery workflows
– Implemented secure authentication, protected routes, and RESTful APIs using Node.js, Express.js, and JWT
– Integrated Socket.IO for real-time order tracking and delivery status synchronization
– Developed backend functionality for order management, checkout, promo codes, and automated email notifications

AI Placement Agent – Intelligent Placement Management System | *MERN Stack, LLM, JWT* Aug. 2026 – Oct. 2026

– Developed a full-stack placement management platform with separate student and admin portals to manage placement activities
– Implemented JWT-based authentication, bcrypt password hashing, and role-based authorization to secure student and admin operations
– Designed AI-assisted job description analysis to extract required skills and eligibility criteria using structured prompts and an LLM service layer
– Developed candidate matching and skill-gap analysis workflows to compare student profiles against job requirements and generate recommendations
– Implemented placement management features for student profiles, job postings, eligibility checks, interview scheduling, and placement tracking
– Integrated protected REST APIs and MongoDB data models to enforce role-based access and manage placement-related information

Certifications & Credentials

B1 Preliminary English Certificate | *Cambridge Assessment English* Dec, 2024

– Certified at the B1 Level according to the Common European Framework of Reference (CEFR).
– Demonstrated strong competencies in reading, writing, listening, and speaking English for professional use.

Hackathon Participant | *Vignan's Foundation for Science, Technology & Research* Sep, 2026

– Collaborated in a multidisciplinary team to design, develop, and present a functional prototype within a strict time limit.
– Utilized technical problem-solving skills to build solutions for real-world challenge statements.
